

PRODUCT DESCRIPTION

The PiConnect™ is a hand held closed loop grit blasting tool to be used with the Pinovo® closed loop grit blasting units PiSys™ Flex, PiSys™ 100 and PiSys™ 1000.

No significant clean-up or further work is required following the Pinovo® preparation process, the surface is ready for painting or other post-treatment.

The low noise and dust free Pinovo® surface preparation process minimizes the impact on surrounding trades and equipment.

Reuse of Fused Brown Alumina blast media up to 25 times reduces the abrasive media consumption up to 90 %.
